

## WHERE TO GO

### Pharma Companies

- Pfizer
- Johnson&Johnson

### CDMOs/CROs

- Lonza Group
- Fuji Film Diosynth

### Antibody Producers

- Roche
- GSK

## WHAT TO SEE

### Processes & Equipment

- Antibody Sample Prep
  - i.e. Protein A Purification
- Bioreactors
- BLI Instruments
- HPLCs

## WHAT TO SAY

Do you enjoy sample prep?

Proteometer eliminates sample prep

Accurately analyzes full molecule, provides titer & aggregate <10mins

# The Proteometer

Provides titer and/or aggregate data for antibodies  
& other protein-based pharmaceuticals in <10 min

*"Sample preparation has long been a bottleneck in pharmaceutical research. Every time you touch a sample, you risk compromising it. The beauty of Novilytic's Proteometer is that it removes this step entirely."*

– Robert Fitzgerald, Manager, Chromatography Portfolio
